

Pharmacy Quantitative Analyst

Lighthouse Technology Services is seeking a Pharmacy Quantitative Analyst for a Direct Hire role in Buffalo, NY.

Responsibilities Include:

- Their role will be to perform ad-hoc client requests.
- Evaluate data discrepancies to determine what the data should actually look like.
- Dive into specific claim billing elements to determine root causes for errors.
- Manage and build out the Tableau Invoice Tool in order to incorporate known and future changes to the tool.
- Develop and maintain Key Performance Metrics to help us manage the business.

Requirements Include:

- Work Experience as a Data Analyst with a PBM or Pharma Manufacturer background.
- Experience pulling data and performing ad-hoc pharmacy reporting like trend analytics, MPR, and discount calculations.
- Experience with ad-hoc requests, trend analytics, and client reporting required.

Preferred Skills Include:

- Tableau and SQL experience would be a plus
